Members of the UKHCA, our established reputation means we are trusted to supply to Hampshire County Council and the NHS and are fully compliant with the standards set by the Care Quality Commission (CQC).

UCA became the carers for my wife when she was discharged from hospital. We have, without exception, found them to be efficient, professional and reliable.

They have been flexible and co-operative to suit our changing needs. In addition, they have all been friendly and aware of the need to respect my wife's dignity and feelings.

I can recommend UCA without any reservations.
